INTRODUCTION

This directory was prepared to assist in the development and expansion of oral health programs in Michigan. There is a wealth of experience across the state and through sharing; many new initiatives have been accomplished.

Beginning on page 20, there is a listing of statewide programs. The Medicaid Dental Program and MIChild Program were not included but information can be obtained by contacting the local health department, Family Independence Agency office, or by calling toll-free 1/888/988-6300.

If you have any questions please contact:
